YOU'VE MADE IT AT LAST !

# CONGRATS

It's your senior year; you have made it at last. The high school is yours to rule and this year everything will be perfect. Everything, including your senior pictures. Yes, gone are the days of those tiny, generic yearbook pictures. Those are for the underclassmen. You are a senior now and only the best will do. Our goal is to give you just what you deserve, the best. We understand how important your senior photography session is, which is why we produce nothing but the best.

## THE SENIOR PORTRAIT

# EXPERIENCE

We love capturing emotions and personalities. Every person we get the opportunity to work with is truly unique. Not only are our sessions about having fun and letting your personality come out, they are about documenting some of the best times in your life. Every senior has their future on their mind. Your head is filled with dreams, thoughts of college, and the excitement of going off on your own. We live to be able to capture that time in your life. Everything from the laughing and seriousness to the in-between, through your vision and our lens, we will capture those emotions and personalities for you.
